

# Maker Spaces

BY NATALLIA SLIMANI

## Tobia Repossi & Partners

Tobia Repossi and Partners is an interior and product design company that works for Asian brands with western standards as well as European and American clients who have their R&D in China. The team comprises of 20 people with Shenzhen as their prime location to be close to production units, accelerators and start ups.

Since Tobia Repossi & Partners are often employed to do interior design for others, it makes perfect sense that they took on the design of their own office as well. Supported by Sino European Design Union which connects designer and companies from all over the world to the Chinese market, Tobia was able to design an interior that reflects its company mission.

"The result is a showroom for our designs and suppliers that changes according to the season with different objects and different colours," explains Tobia, the founder of the brand.

"We strongly believe in informal working spaces where we can feel at home and we love to immerse our clients in this cosy and stylish atmosphere. Our studio is an open space that shows our attitude towards what we do - it welcomes everybody and there's always time for a good glass of Italian wine with our customers".
